

SHORT NEWS

AUGUST 2019

INFORMATION

During the holiday, we prepared for you several pieces of news to facilitate your work with participants.

1. For easier communication, we are changing names of DofE sections in the Czech language, namely SPORT to POHYB, ROZVOJ TALENTU to DOVEDNOST, and AKCE S POBYTEM to REZIDENČNÍ PROJEKT.
2. To register in Online Record Book (ORB), participants can now pay by card directly on the Internet.
3. DofE programme is changing Adventurous Journey conditions worldwide. For clarity, we now have 15 conditions instead of previous 20. Practice Adventurous Journey lasts at least 1 day and 1 night at all levels.
4. We have launched a new YouTube channel with tutorials which will help both you and your participants with programme administration. You can find it here >> <http://bit.ly/DofEnavody>

Clear overview of all news can be found here >> <http://bit.ly/novinkyDofE>

DOFE STORY

International Exchange in Bulgaria

Before the end of the school year, the first international exchange of Award Leaders within the Erasmus+ project called „Non-formal Learning in the Formal Education“ took place in Bulgaria. Czech coordinators from 3 Award Units had an opportunity to meet their colleagues from Bulgaria, Lithuania and the Netherlands.

You can check the pictures here:

COMING SOON

At the National DofE centre, we are currently preparing a survey on benefits of the DofE programme. All young people who will have finished their Award before the end of the year will receive a link to the survey. We will be very glad if you ask your participants to fill it in. With your help, we can receive very valuable data which will then help us with constant improvement of the programme, so that young people want to join it, truly enjoy it, successfully finish it and take advantage of it in their future life.

ADVENTUROUS JOURNEYS

First Adventurous Journey training

Many of you surely know what it is like on an Adventurous Journey. Sometimes it rains, sometimes it is incredibly hot, and from time to time it even snows. One has to be prepared for all these scenarios. In spring, the National DofE centre held its historically first Adventurous Journey training which was attended by 27 participants from various parts of our country.

You can watch a video to know what this training and practice Adventurous Journey may look like >>
